

The Future of Pew News and Communication

Pew News has been printed and published for the best part of a decade now, originally weekly but most recently monthly. This is quite labour intensive and we should like to know what you would miss and how you would like to receive information about church events if it were discontinued. During the past ten years the way in which we communicate information has changed dramatically. Most of what the Pew News has contained is already published in the Wallops Parish News and on the church website.

This questionnaire is to discover which means of communication is preferred. A 'one size fits all' approach rarely works and so we are considering a variety of methods.

Please can you consider the various options and identify which method best suits you. If you could then fill in the form at the bottom of the page with your details and GDPR consent we can begin to communicate better.
