19th October 2021

Dear All at St Peter's Church

Thank you so much for your very kind Harvest donation of 38.78kg and £268 given to support people in our community who are currently struggling.

This has been another difficult year for many and as the weather starts to turn and the evenings draw in, we know that there are still some tough times ahead for many. Your support means we can help families and individuals get the help they need to put food on the table, while they adjust to changing circumstances.

We have seen a lot of need this year but also experienced amazing generosity and for all of you who donated through your church, store collection points, online, by post or direct to our door, we are very grateful.

Because of your support, we can continue helping all those in need, including those whose lives have been affected by changes to Universal Credit and other economic factors. We are now at our busiest time of year, the weather is colder, and people will face tough choices such as eating or heating. Your Harvest donations mean we are ready to help people through the winter so they can do both.

For more information about the foodbank and to get the latest news, visit our website www.andoverfoodbank.org.uk where you can also sign up for our quarterly newsletter. Or find us on Facebook @foodbankandover, Twitter @andoverfoodbank and now Instagram @andoverfoodbank

Thank you once again for your support.

Yours sincerely,

Jenny Lelean
Community Manager
